Safety Basics & RAMP

Please select the one most appropriate for your work. Chemical splash goggles must be provided to all laboratory visitors; visitors must also wear appropriate personal attire and PPE. Wipe down benches with cleaners or disinfectants regularly.

Lab Safety Rules and Guidelines

Chemicals such as dioxane, diethyl ether, and tetrahydrofuran should be submitted to Environmental Management Operations EMO Waste Management Depart for disposal after one year. The risks associated with handling and storing chemicals in the laboratory can be managed by using modern equipment or techniques or procedures to limit exposures.

Safety Basics & RAMP

By on February 14, 2020 in A laboratory is a place bound by rules to ensure the safety of everyone. Chemicals such as diisopropyl ether, divinyl acetylene, sodium amide, and vinylidene chloride should be discarded after three months.

Laboratories

The SDS furnishes more detailed information regarding toxicity exposure levels, flashpoints, required safety equipment and recommended procedures for spill containment.

Chapter 9

Whenever an employee exhibits signs or symptoms associated with exposure to a hazardous chemical, the employee must undergo a medical examination.
