## Chapter 5 Education and Training

Each such application shall contain assurances by the chief executive officer of the State that the State will meet the conditions enumerated in subsection b.

### NIOSHTIC

An informal needs assessment may occur through frequent conversations and personal interactions with colleagues and clients.

## How HBCUs Can Get Federal Sponsorship from the United States Department of Health & Human Services

As a part of an established infrastructure, this support can be sustained over time and thus provide continuity throughout the system. Remembers and uses names of group members, as appropriate.

### NIOSHTIC

Also, the reenlistment objective system was revised to increase emphasis on mid-career NCO retention.

## Chapter 5: Manning the Army

Community Outreach: Workshops and Presentations Workshops and presentations are typical activities of community outreach. Examples of qualitative methods include informal interviews, focus groups, and public forums. In some cases, specific programs of state and local health departments have advanced beyond the basic steps outlined here.

## **Department of Public Health General Appropriations Act**

Report of the NIAID Study Group on Integrated Behavioral Research for Prevention and Control of Sexually Transmitted Diseases. There was a review of advanced individual training programs to identify training opportunities that women desire. Various organizations within HHS provide seminars to give insight into current issues within their organization including the state of current funding; new and current policies and procedure; and pertinent administrative issues.

### **Funding Opportunities**

Thus the armed forces were inadvertently enlisting considerably more persons belonging in the lowest acceptable mental category Category IV than intended or, of course, reported. The GAO added the observation that mandatory pass- through provisos and the slow rate of federal-state money disbursements complicated state planning efforts. Sexually Transmitted Diseases 1990;17 4 :200-210.
