

# North American exploration

University of Nebraska Press - Bernard Deluce, North American Exploration Ltd

Unit overview	
Age of Humanism	
<p><b>Overview:</b> One key idea</p> <p>The Italian Renaissance was a rebirth of learning that gave birth to individualism that created the drive for global exploration and human rights.</p>	
Learning Objectives	Resources to Use
<p><b>SS-HE-2.1.1</b> Students will explain how belief systems, knowledge, technology and human progress define cultures and help to explain historical perspectives and events in the modern world.</p> <p><b>SS-HE-2.1.2</b> Students will explain how various human needs are met through education and among social institutions (e.g., family, religion, education, government, economy) in the modern world.</p> <p><b>SS-HE-3.1.1</b> Using the Renaissance and Reformation, students begin to understand the ideas of the Christian Age and to question their place in the universe.</p> <p><b>SS-HE-3.1.2</b> Students will explain and give examples of how new ideas and technologies lead to a global exploration by Europeans that brought great wealth to the dominant monarchies and caused significant political, economic and social changes (warfare, religious ideas, technology, new political systems, forms of government) in the other regions of the world.</p>	<p>The rebirth of education in the western world created a drive for European to develop ideas and technologies that led to the development of human rights.</p> <p>With the rebirth of education in Europe that led to the development of Humanism, Europeans tended to change the government institutions that were intertwined with the Catholic Church in order to create a system that supported the individual right to liberty.</p> <p>During the Renaissance more people sought to make a complete list of man's knowledge and to organize it into a system that was based on the government and religious establishment that existed in Europe from the rest of the world for generations.</p> <p>The European Renaissance encouraged men to seek new forms of wealth and culture in other parts of the world. In order to accurately map the world, Europeans created technologies and political perspectives to help them achieve high levels of wealth and to justify their motives.</p> <p>The use of primary and secondary sources helps students gain a real life perspective on how the past is remembered in the present.</p>
<p><b>SS-HE-3.1.3</b> Students will use a variety of tools (i.e., primary and secondary sources, data, artifacts) to analyze perspectives and perspectives (e.g., gender, race, religion, ethnic group, nationality, age, economic status, religion, politics, geographic location of people and historical events in the modern world (2000 A.D.) to present) and United States history (Reconstruction to present).
