As a result, the displacements of source-emitted particles in the lateral  $y$  and vertical  $z$  directions,  $y_p$  and  $z_p$ , respectively, are independent.

### 8. The Discussion

This means that makers of perfume packaging are encouraged to view all the dimensions of packaging equally and develop them as a whole. Also the study showed that there is a difference in the application of strategic planning due to the size of the corporation and the operational period of the corporation. The results revealed that not all the risks have a direct effect on MBACE, and trust has a mediating effect on MBACE.

This study found that the practitioners are aware of the advantages of adopting SMA practices and their impact on business management and performance by creating value in their organisations. Therefore, the content conforms to our standards but the presentation e.

### 8. The Discussion

The research perspective of this article is that when employees perceive the organisation's support in their career development, they reciprocate it with positive behaviour thus contributing to the overall effectiveness of the organization. The discussion will always connect to the introduction by way of the research questions or hypotheses you posed and the literature you reviewed, but it does not simply repeat or rearrange the introduction; the discussion should always explain how your study has moved the reader's understanding of the research problem forward from where you left them at the end of the introduction.

Four factors obtained which accounted for the 53. If you feel compelled to speculate, be certain that you clearly identify your comments as speculation or as a suggestion for where further research is needed. As the outcome of the review, a discussion is provided highlighting the key insights concerning generalisability; content and construct validity; use of single-item measures and predictive validity; and developing optimal

standard measures in marketing.

It has been found after SEM analysis that the green manufacturing practices is being implemented in Indian SMEs due to two major pressures that is government pressure and customers pressure whereas there is least effect of social pressure on Indian SMEs. The gaps include the gap related to the Tool Kit TK element, the gap related to the Performance Management system PMS element, and the gap related to the overlap between the elements of the excellence frameworks.

### **BUILDING A SUSTAINABLE FUTURE**

This deviation may be explained by the neglect of stochastic variability in the model and requires further investigation. Today, physical consultation is the most dependent model. They are freely available and openly accessible to all without any restriction except the ones stated in their respective.
