Gaius Suetonius Tranquillus

His identity unknown, the so-called Spanish Forger was active in painting 'medieval' miniatures in Paris between the 1890s and 1920s see W. While he was yet an infant, the surname of Thurinus was given him, in memory of the birth-place of his family, or because, soon after he was born, his father Octavius had been successful against the fugitive slaves, in the country near Thurium. He was unsparing in the reward of military merit, having granted to above thirty generals the honour of the greater triumph; besides which, he took care to have triumphal decorations voted by the senate for more than that number.

It is probable, therefore, that altera referred to some third person, spoken of immediately before, as one who promised to do honour to his country. C. Suetonius Tranquillus Biography, Quotes, Works and Writings

A great number of public buildings were erected by him, the most considerable of which were a forum, containing the temple of Mars the Avenger, the temple of Apollo on the Palatine hill, and the temple of Jupiter Tonans in the Capitol. In those excellent productions, though he

adduces the strongest arguments for and against any object of consideration, that the 65 most penetrating understanding can suggest, weighs them with each other, and draws from them the most rational conclusions, he yet discovers such a diffidence in his own opinion, that he resigns himself implicitly to the judgment and direction of his friend; a modesty not very compatible with the disposition of the arrogant, who are commonly tenacious of their own opinion, particularly in what relates to any decision of the understanding.

Suetonius, ca. 69

Tiridates was nine months in Rome or the neighbourhood, and was entertained the whole time at the emperor's expense.

GAIUS SUETONIUS TRANQUILLUS (c.70)
