## 1930s/40s Observer's Nature Books Various Titles

Book has no obvious faults, in DJ which has light yellowing, but no wear. Even my untrained eye notices moss while running errands on foot, or walking to the dedicated Nature area of town. We are part of a circle of life.

## Frances Rose

## Book Details

## Ecological Flora of the Central Chilterns

**The Observer's Book of Grasses Sedges Rushes by Francis Rose**

Dr Kimmerer takes us on a walk through the wild, intricate and utterly unforgettable world of mosses. I hated botany in college so while this was highly recommended by a friend who happens to be a botanist who studies.
