NASA's Cosmicopia

Particular care is used to see that the instruments are in good working order and the requisite caution is exercised to insure the absence of disturbing influences of whatever character. Reports of wind, 1872-79; rainfall, 1871-84; barometric pressure, 1871-90; and temperature, 1871-86.

Variation of the Solar Microwave Spectrum in the Last Half Century

Underground Muon TelescopesOne of the most important early developments was the decision by Geoff Fenton to operate underground telescopes in a disused railway tunnel at Cambridge near Hobart.

Magnetic measurements near the deep ocean floor

The inhabitants on the shores of Tanganyika had been removed about 15 miles from the lake and the port Kitutu was practically closed. Maps: Observations by Western Union Telegraph Company, 1870 13 items ; and by Cleveland Abbe, 1870-71 80 items.

Establishing the Australian Network of Observatories

Considerable use was also made of reliable large scale maps, whenever available, and of standard atlases; the values in regions but slightly surveyed may be out sometimes by several minutes. Before 1600, comets were essentially considered to be heavenly omens and were not yet clearly established as celestial astronomical , rather than meteorological phenomena in the terrestrial atmosphere.

[Book] Record of Observations at the Agincourt Magnetic Observatory, 1957 and 1958. by Canada. Dept. of Mines and Technical Surveys. Observatories Branch. Download PDF EPUB FB2

Air Force investigators examined their records and searched, as well, for reports of unrecorded UFO sightings. Lang: -eng , Pages 18 , Print on Demand.
