eMaps Healthcare in Europe

Sweden Sweden has radically different healthcare model to much of Europe: fully government funded and highly de-centralised. As in Germany, Belgian citizens can visit any healthcare establishment they wish - quite literally walking in off the street, although referrals from private or practice-linked GPs are increasingly being used, and language pays a major part in choices.

How European nations run national health services

A Widespread Population Study of Actual Medical Management of Lower Urinary Tract Symptoms Related to Benign Prostatic Hyperplasia Across Europe and Beyond Official Clinical Guidelines. The unemployed are funded separately through the social fund or the AOKs Allgemeine Ortskrankenkasse, the local funds of last resort, which cover about one-third of the population. However, considering other outcomes of this study, it may also derive from other factors, e.
