It has an easy-to-use five-function workout computer that provides immediate feedback on speed, distance, time and calories burned. The compact nature gives you the option of putting the machine away just in case you have a dinner party or have some guests coming around, which is something a lot of other ellipticals cannot do. Variable Grip Options A great aspect of the Gazelle Freestyle Glider is the ability to change the degree of muscle involvement in a particular exercise, simply by changing the position of your grip.
