Country Fact Sheet

This was before my time but that's my conclusion when I try to trace this issue back to its origin. The Western Political Quarterly, 44 3 , 605—624. Notes: Percentage % of population using each drinking water source, based on modelled estimates up to 2017.

UNFPA Pakistan

Empowering women: Self, autonomy, and responsibility.

Country Fact Sheet

The empowerment laws and the gender based violence laws also need proper attention to meet the current challenges of the country.

Women's Empowerment in Pakistan: Its Dimensions and Determinants

The determinants of women empowerment in Southern Punjab Pakistan : An empirical analysis.

National Commission on the Status of Women

Notes: Number of deaths of children aged 0—59 months per 1,000 live births, based on modelled estimates up to 2019.

Country Fact Sheet

A struggle for getting equal rights and to equalize socioeconomic differences is as old as the age of Pakistan.

National Commission on the Status of Women

Do schooling and work empower women in developing country? Corrections All material on this site has been provided by the respective publishers and authors. Female age at marriage and female literacy are significant and negatively related to birth rate, while sex ratio and infant mortality rate are statistically significant and positively related to birth rate.

Status of Women in Pakistan

Intakes are based on modelled estimates for adults aged 25 years and older. Meanwhile, there is insufficient data to assess the progress that Pakistan has made towards achieving the low birth weight target, nor is there adequate prevalence data. Literacy and violence Many in Pakistan claim that social media and the internet have changed the country, but according to the data, the information age has yet to reach almost 9 in 10 women in Pakistan.
