**5. Unidentified Flying Objects: Fact or Fantasy?**

He does not say either way if there are aliens or not, but if you can prove there are, then he will agree that they are real.

**Final report of the scientific study of unidentified flying objects (Book, 1969) [mikhmon.us.to]**

Description: xxiv, 965 pages, 32 unnumbered pages of plates : illustrations ; 18 cm Other Titles: Condon report Scientific study of unidentified flying objects Condon report on unidentified flying objects Responsibility: conducted by the University of Colorado ; Edward U. There are several well presented arguments from the experts, like the fact that even though there are many sightings that have been concluded to be that of naturally

occurring instances or events such as gas or blimps and balloons.

#### **UFO Documents Index**

He believes that this is not a waste of time, and would eventually be beneficial to science. Paynter is a realist, and without rock solid proof, there is no proof, just rumor. Yeates - Civil Action No.

#### **UFO Documents Index**

Condon also believes that UFOs are not the scientific advancement that there is today. Condon comes to the conclusion that there is not enough scientific proof for UFOs.

#### **Scientific Study of Unidentified Flying Objects: Final Report of Research Conducted by the University of Colorado for the Air Force Office of Scientific Research under the Direction of Edward U. Condon, The American Journal of Physics**

He believed that we should first gather data that is quantitative rather than qualitative. Paynter decides to remain a skeptic because there are instances where it can be proven and there are instances where it cannot be prove. I also like the way he paid respect to the work done by Edward U.
