## Proceedings of the 2nd Experimental Chaos Conference (1995 edition)

Christmas Order Cut-off Dates Due to increased demand during the Christmas period, there may be some delays in shipment and delivery due to high traffic. This conference provides opportunities for the delegates to exchange new ideas and application experiences face to face, to establish business or research relations and to find global partners for future collaboration.

The 2nd experimental chaos conference provided a multidisciplinary forum for the scientific and engineering communities to present recent developments of and techniques in nonlinear dynamics. The conference program will be devoted to a detailed review of the latest experimental and theoretical results on collider physics, and recent results of the LHC Run II, and discussions on further research directions within the high energy particle physics community including both theory and experiment sides.

Abstract, Special Session and Workshop Submission Deadline 31 January NEW After the Deadline Abstracts and Special Sessions should be sent as LATE SUBMISSIONS to. The purpose of the conference is to review recent advances in experimental, theoretical, and applied studies in the liquid state of matter, bringing together researchers from all over the world working in the field of physics and chemistry of liquids as well as in several closely related areas such as soft condensed matter and biophysics.
