## Occupational gender segregation of the Canadian labour force, 1931

Following a discussion of the nature of gender segregation in paid work, and a review of American and Canadian research on the topic, we assess changes in gender segregation in the paid labour force, using census occupational categories, which were matched for adjacent pairs of censuses from 1931 to 1981. Accordingly, our purpose here is to clarify some of the conceptual and measurement issues. Canadian Warship Names, Freeman, David J.

**David J Freeman**

Size: Octavo standard book size. Paper Industry was Increased and What it Tells us about the Effects of Employment Security. Furthermore, even when there is agreement about what should be measured, there are disagreements about how best to do this.
