The Psychology of Kundalini Yoga : Notes of the Seminar Given in 1932 by C.G. Jung

Those resistances are a most useful and important instinct: you have resistances, scenes, and disappointments so that you may become finally conscious of yourself; and then hatred is no more.

THE PSYCHOLOGY OF KUNDALINI YOGA NOTES OF THE SEMINAR GIVEN IN 1932 JUNG EXTRACTS

For you should leave some trace in this world which notifies that you have been here, that something has happened. I enthusiastically recommend this book as an introduction to realms of analytic thought generally outside the classical and mainstream views. This volume also offers newly translated material from Jung's German language seminars, a seminar by the indologist Wilhelm Hauer presented in conjunction with that of Jung, illustrations of the cakras, and Sir John Woodroffe's classic translation of the tantric text, the aj-cakra-Nirpaa.

You must believe in this world, make roots, do the best you can, even if you have to believe in the most absurd things—to believe, for instance, that this world is very definite, that it matters absolutely whether such-and-such a treaty is made or not. What light do the symbols of Kundalini yoga shed on conditions diagnosed as psychotic? É um livro para quem já tem algum conhecimento dos temas abordados e interesse em aprofundá-lo utilizando um abordagem diferente e desafiadora.
