Domestic Public Resources

For example, in Colombia, half of all contractors that won government bids under the new, more open procurement system in 2015 had never participated in public contracting before. This series of policy memos is primarily concerned with the tax or domestic revenue side of DRM and in the two subsequent memos will explore other topics related to DRM: how good public financial management impacts DRM and the political side of DRM. Further expansion of domestic resource mobilization DRM is needed to help African countries finance their economic stimulus packages and renew progress toward the SDGs.

UNU

· In addition to the mobilization of private finance, I want to share with you two new innovative financing avenues. However, this growth also came with significant challenges, as tons of gold began leaving the country undeclared and undetected due to gaps in mining sector management. The system will integrate all electronic transfer of money in the East African Community EAC through harmonized laws, policies and regulations, making the transactions cheaper, more secure and efficient.

Domestic Resource Mobilization and Financial Development by G. Mavrotas, Paperback

The author argues that the public must hold policy makers responsible to provide these services as well as address factors that impede the poor's use of them.

Domestic Resource Mobilization and Financial Development : G. Mavrotas : 9781349299959

Beginning in 2015, Liberia also began using its to work on land issues.

Domestic Resource Mobilization and Financial Development

This is particularly relevant in developing countries, which suffer from high rates of unemployment and informality. To cite one indicator, between

2003 and 2006 domestic credit to the private sector as a percent of GDP in low income countries increased from 27.

Domestic Financial Resources

Nigeria announced efforts to change this at the UK-hosted Anti-Corruption Summit in 2016, where the country committed to joining OGP and to setting up a national public registry of the beneficial owners of companies. Through these meetings, communities like the Jogbahn community in central Liberia were able to negotiate with mining companies and the government to ensure the autonomy and preservation of their rights to the land they have always occupied.
