## Palaeoenvironments of the late Triassic Rhaetian Sea: Implications from oxygen and strontium isotopes of hybodont shark teeth

The resistance to the Danes in the beginning was disorganised and, given the ease of the conquest, they decided to settle permanently in England.

## Scandinavian invasions of Britain

. They plundered and killed indiscriminately there and elsewhere, e.

## Palaeoenvironments of the late Triassic Rhaetian Sea: Implications from oxygen and strontium isotopes of hybodont shark teeth

The earliest attacks were on Lindisfarne and Jarrow in 793-4. Mean  $\delta^{18}\text{O}$  P values differ regionally across the Rhaetian Sea with values of 18. Unsourced material may be challenged and removed.

## Two new odonate

Initially, this just consisted of marauding and plundering of places of wealth and they always returned back to home base. The early Viking raids were carried out by Norwegians.

Polish Journal of Entomology, 82 3 , MLA Barth, Gregor, André Nel, and Matthias Franz.

## Scandinavian invasions of Britain

Areas of Scandinavian settlement in Britain and Ireland Scandinavian placenames in Britain Reconstructed Viking long ship on the River Liffey, Dublin Model of the Oseberg Viking ship. Scandinavian migration to Britain is a phenomenon that has occurred at different periods over the past 1,200 years. The second wing, *Triassothemis gartzii* sp.

## Scandinavian migration to Britain

In Ireland the influence was greatest along the east coast where the Vikings found many towns at the estuaries of rivers, e. Here the monasteries with their ornamental riches attracted the raiders. In both occurrences the insect wings were associated with abundant autochthonous as well as allochthonous faunal and floral remnants of shallow subaquatic environments.
