**Comparative politics : rationality, culture, and structure /**

Mark Lichbach begins with a review of discovery, explanation and evidence and Alan Zuckerman argues for explanations with social mechanisms. Editorial Reviews This volume offers a completely revised, updated and exciting version of the well-known volume published by Mark Lichbach and Alan Zuckerman a few years ago. Ira Katznelson, writing on structuralist analyses, Margaret Levi on rational choice theory, and Marc Ross on culturalist analyses, assess developments in the field's research schools.

**Comparative Politics: Rationality, Culture, and Structure**

Advancing explanation in comparative politics: social mechanisms, endogenous processes, and empirical rigor Alan S. Subsequent chapters explore the relationship among the paradigms and current research: the state, culturalist themes and political economy, the international context of comparative politics, contentious politics, multi-level analyses, nested voters, endogenous institutions, welfare states, and ethnic politics. Comparative politics rationality culture and structure is a completely revised second edition of the volume that guided thousands of scholars through the intellectual demands and gratifications of comparative political science retaining a focus on the fields research schools it now pays parallel attention to the pragmatics of causal research.

**Comparative Politics: Rationality, Culture, and Structure / Edition 2 by Mark Irving Lichbach, Alan S. Zuckerman**

Use ILLiad for articles and chapter scans. It is unique in that it highlights not only the big theoretical issues of the discipline, but also delves deeply into their epistemological and methodological implications and ramifications. A second set of authors applies the research schools to established

fields of scholarship.

Mark Lichbach begins with a review of discovery, explanation and evidence and Alan Zuckerman argues for explanations with social mechanisms. Social theory and comparative politics Mark Irving Lichbach; 10. Thinking and working: discovery, explanation, and evidence in comparative politics Mark Irving Lichbach; 3.

**Comparative politics : rationality, culture, and structure**

Organized along the distinction between the rational choice paradigm with its emphasis on reasoned agency, the cultural paradigm, with its emphasis on rules, norms, and identities, and the structural paradigm which focuses on institutions, the book not only carves out the major positions that inform today's theoretical debate in Comparative Politics; it also evaluates their respective merits and problems, and identifies their complementarities. Please check the HathiTrust Emergency Temporary Access Service ETAS for your item. A theorist interested in social choice and a comparativist interested in globalization, Lichbach explores the connections between collective action theories and political conflict as well as the connections between collective choice theories and democratic institutions.
