## Children With Emotional And Behavioural Difficulties: Strategies For Assessment And Intervention

Down Syndrome Research and Practice, 1, 47-55. Analysis of the pattern of antecedents and consequences results in a hypothesised function of the challenging behaviour. We then draw upon the existing literature as well as our clinical experience and ongoing research to provide suggestions regarding behaviourally based applications to ameliorate specific challenging behaviours associated with Down syndrome in an effort to intervene

as early as possible on this aspect of the behavioural phenotype characteristic of children with Down syndrome.
