Christ in Evolution: Weekly Summary — Center for Action and Contemplation

I struggle with my appreciation of Jesus and I was absolutely blown away by Ilia Delio's writing and theological perspective. At one point in our evolution, bacteria with their own DNA invaded our cells and took up residence there to become mitochondria which process oxygen and carbohydrates in order to give us our energy. Christ, the Alpha, at the beginning is pure energy unfolding according to complex laws.

Christ in Evolution

I first heard her at a symposium, then I read the book, and the theology she proposes is exciting, hopeful and gives me a sense of responsibility as co-creator of the future of our planet. Our library is the biggest of these that have literally hundreds of thousands of different products represented.
