

# Immunolocalisation of growth hormone at LM/EM level using 20 nm colloidal gold.

The Author] - Evaluation of a colloidal gold immunochromatography assay in the detection of *Treponema pallidum* specific IgM antibody in syphilis serofast reaction patients: a serologic marker for the relapse and infection of syphilis.

Description: -

-Immunolocalisation of growth hormone at LM/EM level using 20 nm colloidal gold.

-Immunolocalisation of growth hormone at LM/EM level using 20 nm colloidal gold.

Notes: Thesis (M.Sc. (Biomedical Sciences)) - University of Ulster, 1989.
