Claudio Nägeli

Program-Input Generation for Testing Database Applications Using Existing Database States. With global warming already underway and the sense of urgency around climate breakdown growing, delivery of a resilient built environment is critical.

Tao Xie

Efficient service delivery and housing will keep these areas attractive to live in also in the future.

Chalmers Research: Shun

Academic Mindtrek, Tampere, Finland 2016. SENECA fellows had the opportunity to present their work in the context of this workshop, and to benefit from its environment, and talks targeted to young researchers. PolicyLint: Investigating Internal Privacy Policy Contradictions on Google Play.

Dr. Bram Adams

In Proceedings of Symposium and Bootcamp on the Science of Security, Poster, Raleigh, NC, April 2014. My current research focuses on methods and mechanisms to proactively manage the quality of cloud applications, in particular regarding software performance and deployment costs. The key challenge for smart cities and communities is to significantly increase the overall quality of life in urban areas, for the benefit of their inhabitants and economic activities.

Ann

In Proceedings of the 2020 International Symposium on Software Testing and Analysis, Los Angeles, California, July 2020. The Third IEEE International Workshop on Trust, Security, and Privacy for Ubiquitous Computing, Helsinki, Finland.
