It has many prehistoric paintings. It's older than its Cenozoic relatives dating to the early period, about 125 million years ago and only weighed about 25 pounds which was still much heftier than most mouse-sized mammals of the time.

The Adena People and Prehistoric Colonization of North America

Leadership was restricted to a group of 50 , each representing one within a tribe; the and had nine seats each; the held fourteen; the had ten seats; and the had eight. By the end of 1998, ten excavated sites had produced remains with beginning dates of 11,000 years ago or slightly earlier. Canada's oldest known home is a cave in Yukon occupied not 12,000 years ago like the U.
