31 Magnificent Facts about Medina

The statistical analysis was based on manually counting visitors from photographs and video records and averaged for better accuracy and precision. Other 1:100,000 scale geoscience maps are also published for some areas, as mineral investigation sheets and industrial mineral resources maps. The first modern mapping of the Kingdom of Saudi Arabia was established after an inter-governmental agreement with the United States in 1954.

Medina

Its alleyways include more than 420 stores selling traditional handicrafts, spices, oils and local perfumes.

Saudi Arabia

While the urban layout of the city during this period is difficult to determine precisely, Medina provided an architectural typology that would be replicated the world over: Muhammad's house and his provided the spatial organization of the religious, political, judicial and social functions of the Muslim house of prayer. This methodological study is expected to fill this gap in literature.
