War and State Building in Medieval Japan

Initially, this merely served to vault Yoritomo and after him, the shogunate into prominence, but in the long run, it created a mechanism for unraveling the fabric of centralized authority. Officers will not investigate, even if a group of you flee back to the province of Higo.

The likelihood of violent challenges to the central polity from the regional nobility had also dwindled rapidly, as former provincial chieftains came to accept the imperial state structure as the arena in which they would compete for power and influence. After the Jōkyū War of 1221, an ill-fated attempt by a retired emperor, Go-Toba, to eliminate the shogunate, the balance of real power shifted steadily toward Kamakura, and away from Kyoto.
