William Faulkner's As I lay dying (1985 edition)

Writing is about making a connection to a stranger, bridging a gap of confusion to create understanding and to share an idea, a theme, an image with thousands or millions of people who you've never met. However, after the river accident, Anse sells Jewel's horse in order to have enough money to buy a team of mules so that they can finish their journey.

As I Lay Dying: Suggestions for Further Reading

That feeling when you are not sure what to read next, because whatever you pick will carry some of the flavour of the sorrow and the hopelessness a That feeling when you close a book, and it is like you can't breathe, because all the breath of life seems to be stuck in that story, and you just finished it, and there is a vacuum inside. This judgment is equivalent to the one which prefers The House of the Seven Gables to all the other works of Hawthorne.

As I Lay Dying: Plot Overview

This may seem surprising since Faulkner came from a rather distinguished Mississippi family. These Japanese writers, each by his own concern, earnestly struggled with the hardships of Japanese. I would think how words go straight up in a thin line, quick and harmless, and how terribly doing goes along the earth, clinging to it, so that after a while the two lines are too far apart for the same person to straddle from one to the other; and that sin and love and fear are just sounds that people who never sinned nor loved nor feared have for what they never had and cannot have until they forget the words.
