## VOLUME 2 NUMBER 2

Fragility and context: the ethnopsychiatric reaction It is in this frame that ethnopsychiatry had its reason for existence. What do they have in common? I had to change high schools several times but finally managed to complete secondary education in 1948 with the final exams at a Gymnasium in Munich. How do certain facets of ethnopsychiatry -- as much as the production and interweaving of narratives concerning fragility -- reproduce the discourses of power, or the Other, the perpetual springing-up, knowledge of which is always opaque and becomes an essence determined once and for all? In many cases, one member of the family has problems that detrimentally affect everyone.

## VOLUME 2 NUMBER 2

Asian immigrants and the stress process: A study of Koreans in Canada. Problems include deterioration of symptoms or developing new symptoms, strains in other relationships, and therapy dependence. In Zurich, I trained under M.
