## Exploration & Research

Neither images nor text can be copied from this site without the express written permission of the copyright holder. Lake served as Vice President of Engineering for Blue Whale Energy North America evaluating acquisition opportunities for international investors, and was notably involved in the acquisition of Tall City Exploration I.

## Leadership — Trailhead Exploration, LLC

All this data, including seafloor mapping, coral distributions, and habitat suitability models, supported the recent creation of deep-sea coral protection zones by both the New England and Mid-Atlantic Fishery Management Councils. Capable of resolving escalated issues arising from operations and requiring coordination with other departments.

## Management

Responsible for overseeing a staff of technical professionals.

## An exploration of management practices in hospitals — Research Profiles at Washington University School of Medicine

Nor does it attempt to cover social development issues in detail, although they are mentioned as important elements in the text, alongside ecological issues.
