Siblings: Brothers and sisters of children with disability

Solve problems together Each day, you and your typically developing child will probably come across tricky experiences and emotions.

Support for Siblings of People with Disabilities

Show siblings you respect their need for private time and space away from the child with the disability. Most of the research focuses on convenience samples lacking minority families, as it is often difficult to find siblings. The personal safety of siblings should always be given as much importance as the support and education of their brother or sister.

Brothers and Sisters of Children with Disabilities

Or is there something you really want to do? No one challenges a child with special needs to be more creative, responsive, ambitious or adventurous, and no one else's opinion holds as much weight.

Special brothers and sisters; stories and tips for siblings of children with a disability or serious illness.
