**Han'guk munhwa paekkwa sajön = An encyclopaedia of Korean culture / edited by Suh Cheong**

Many of these modalities are still in early phases of study for the treatment of autoimmune disease.

**Han Hyun**

. He was raised in the neighborhood of , where many foreigners in South Korea reside, as well as some of the richest South Korean entrepreneurs. The objective was to determine effects of active immunization against GnRH on reproductive function in Tibetan rams.

**Page Not Found**

This was apparently the first report that active immunization against GnRH-tandem-dimer-ovalbumin conjugate in Specol adjuvant was an effective alternative to surgical castration for Tibetan rams under practical Tibetan plateau conditions.

**Han Hyun**

The monkeys began antiretroviral therapy shortly after infection, so their viral reservoirs may have been small and relatively easy to eliminate.
