## Egypt Moving Forward: Key Challenges and Opportunities

What is needed is knowledge about how other countries have successfully navigated their development challenges and opened-up to the world. Successful agricultural transformation plans differentially target agri-food systems and geographic areas with tailored strategies.

## Inclusion and Resilience : The Way Forward for Social Safety Nets in the Middle East and North Africa, OVERVIEW

Most large-scale transformations in the private sector use versions of PMOs. Europe is far more directly affected by the loss of Libyan oil and trade and the increase in Libyan refugees. Our experience suggests that they are the biggest controllable factors leading to successful conclusions.

## U.S. policy toward a turbulent Middle East

None of these governments had much legitimacy, even the monarchies which generally took power during the inter-war period and so had little claim to tradition or longevity. Beginning in the 1990s, these systems began to come under pressure and to fail. And of course the key transmission channels through which this has taken place is remittances and investment flows.

## From Evidence to Policy

At a country or sector specific level, one could find an abundance of counter-examples. But if it were to spread, then clearly, that would have an impact on oil production in Iraq. Policy makers also need to use data and analytics to set reasonable targets and redirect programs where outcomes are not meeting targets.

## Inclusion and Resilience : The Way Forward for Social Safety Nets in the Middle East and North Africa, OVERVIEW

Resurrecting Reform Beyond ending the civil wars currently roiling the region, the United States must also push forward policies that will help avoid the creation of new failed states and new civil wars—recognizing that both the Sunni terrorists and the Iranians will be doing the opposite in hopes of creating new hosts to infect. The analysis proposed above will assist us in identifying the significant operational implications that need to be

addressed.
