### Raporty organizacyjne: „Autobiographical Memory Retrieval”

Streszczenie: The article analyzes the experiments of theoretical research of lyrical prose.

#### AIRO

Ideological and aesthetic features, typological aspects of Kazakh lyrical prose are revealed. Poisk is overall the same design as the docking module Pirs. Streszczenie: The paper outlines the unprecedentedly rich system of simple one-word , double and triple reflexive pronouns in the Khwarshi language of the East Caucasian or Nakh-Dagestanian language family.

#### AIRO

Você também pode baixar o texto completo da publicação científica em formato. They deployed antennas and a docking target, installed two handrails and plugged the new module's Kurs antennas into the Kurs docking system circuitry.

#### Poisk (ISS module)

The authors turn to the analysis of the ratio of epic and lyrical components in prose, the relationship between lyricism and psychology, the relationship between the author's worldview and the character. It has two egress hatches for EVAs in addition to the two spacecraft docking ports.

#### Artykuly w czasopismach: „Dagestanian prose literature”

. Sommaire Durant les cinquante dernières années, un grand nombre de textes allemands médiévaux ont paru en traduction, essentiellement en prose, et très souvent sous la forme de textes bilingues. The article begins with a brief overview of this development, and distinguishes between poetic recreations and the more usual functional paraphrases.

### Raporty organizacyjne: „Autobiographical Memory Retrieval”

Through her stories she builds the identity, discourse, psychology, fate and misfortune of women. Zenith docking system on Zvezda, the docking

location of Poisk module Two spacewalks conducted from the ISS in June 2009, successfully completed activities anticipating Poisk module's future berthing. Keywords: Albanian literature, prose, minimalism, Kokalari, small worlds.

#### **Livros: Popular de Libertac'ao de**

An erroneous indication of a rapid depressurization led to the automatic shutdown of ventilation fans throughout the station, which stirred up dust and led to a false smoke detection alarm in the European Space Agency's Columbus laboratory. Progresses are also preferred for the Poisk zenith port as Poisk is now serving as the Russian Segment's airlock following the departure of Pirs, and access to Soyuz craft docked to Poisk is blocked whilst Poisk is depressurized during spacewalks, which presents safety issues in an ISS evacuation scenario.

#### **Livros: Popular de Libertac'ao de**

The Soyuz TMA-16 spacecraft undocked from the aft end of the Zvezda service module at 10:03 UTC and backed away to a distance of about 30m 100 feet from the space station. Poisk combines various docking , and science capabilities.
