**unemployment: Sorry, but mimicking China won't help India create the jobs it desperately needs**

Future arrangements may be less generous, however, given the uncertainties now facing the global financial services sector.

**Nine in 10 poly graduates employed within six months after graduation**

Catherine de Fontenay It's interesting that while we saw sticky wages in that decade after 2008, it's probably because it wasn't a major recession, just a period of weak growth. To be sure, ULC growth and inflation appear to co-move closely in the long run.

**Banking and Finance BSc Honours**

Some of the workers who were re-employed in other companies also benefited from financial support for geographical mobility, which is provided for a period of 18 months, and dependent on the distance between home and the new job location.

**ERM case studies: Good practice in company restructuring**

Jeff Borland Hi Catherine, thanks very much for inviting me to be part of the podcast.

**HSBC, UK: Increasing the labour market participation of underrepresented groups**

Finally, the central bank could decide to offset some of the additional costs by lowering the average remuneration on required reserves, by either expanding unremunerated required reserves or applying differential rates on excess balances eg a zero rate on a portion of excess balances. Description of the initiative HSBC Holdings emphasises the need to have a diverse workforce that reflects the many different communities in which

it operates around the world. This credit line has been implemented in collaboration with the Ministry of Electricity and Renewable Energy as well as the United Nations Development Programme, to produce a comprehensive credit line entailing technical support, financing, and a list of trusted suppliers.
