## Hernán Cortés

The most famous early bardic poets, Taliesin and Aneirin, wrote epic poems about Welsh events and legends around the seventh century. The village as a center of rural society, however, became significant only in southern and eastern Wales; other rural areas maintained scattered and more isolated building patterns.

## Welsh History

I came across this by accident and it's a nice wee read. Up to the mid 19th century Welsh was the main language in Merthyr Tydfil and other industrial towns in Wales. You could be a winner! The children who were old enough to remember were told to never say their old surnames ever! There are, however, three army regiments, the Welsh Guards, the Royal Regiment of Wales, and the Royal Welch Fusiliers, that have historical associations with the country.

## How Did the Tudor Rulers Impact the History of England?

The Aztecs eventually drove the Spanish from Tenochtitlan, but Cortés returned to defeat the natives and take the city in 1521.

## Periods in history

The development and continued use of the Welsh language also played important roles in maintaining and strengthening the national identity. The people of Wales share the dna of Ireland which has europe's oldest dna of this type- Ireland having the most ancient form of r1b dna. A stick or plaque was given to any child heard speaking Welsh during school, to be handed on to whoever next spoke the language.

## A short history of modern Wales : 1485 to the present day (Book, 1961) [mikhmon.us.to]

British patriotism in its first incarnation was ultimately Welsh in character. One legend connects the leek to Saint David, the patron saint of Wales, who defeated the pagan Saxons in a victorious battle that supposedly occurred in a field of leeks. Scotland is rarely discussed as an example of

how the sick and elderly can be cared for without privatising provision, or how universities can be funded without indebting young people.

## **BBC**

In 1925 the Welsh Nationalist Party, known as Plaid Cymru, was founded with the intention of gaining independence for Wales as a region within the European Economic Community. For England, it was national security.
