The settlers were simply called 'Khorasanis' by the local citizens. Tata Iron and Steel has formed the backbone of Indian heavy industry for nearly a century, while almost every gaily-decorated, overloaded truck that plies India's roads today carries the Tata name.

## Parsi

LOCATION AND HOMELAND Parsis in are a small community, numbering 69,601 people according to the 2001 Census of India. The number and size of such inland communities suggest strongly that other Zoroastrians must have entered India via land routes from the northwest and, in time, fallen under the rubric of Parsis. The number of Parsis is, however, declining.

## Qissa

Eight large fire-temples in India include four in Mumbai and four in the state of Gujarat two in Surat, one in Udwada, one in Navsari. Because each style has its own formatting nuances that evolve over time and not all information is available for every reference entry or article, Encyclopedia.

## 巴斯人

At the same time, educated women in the community began to choose careers over marriage, family, and domesticity—close to 25 percent of Parsi women remained unmarried after the 1970s, and the community's birthrate declined drastically. It did so not through law but through edicts and codes of conduct that were enforced by communal pressure.
