Trump reposts meme

The ultimate role of olfactory cortex is to encode odor, not airflow.

Diaphragm sniff ultrasound: Normal values, relationship with sniff nasal pressure and accuracy for predicting respiratory involvement in patients with neuromuscular disorders

SIP-ENUM uses that file as an input.

Grant

The role of sniffing in our mis understanding of olfactory intensity coding The sniff is an active process, suggesting that passive delivery of odor without sniffing is an unnatural stimulus. Middle row from left to right: the implants used to restrict nasal flow and the effect of this on fMRI signal in piriform cortex. Drug dogs are being used more and more in Maryland when the police suspect there may be illegal drugs in the car.

Sniff Is Part of the Olfactory Percept

Results A total of 89 patients with neuromuscular diseases and 27 healthy subjects were included in our study.

Poppers

Marijuana can reduce nausea, vomiting, and loss of appetite caused by AIDS.
