Modeling fertility in modern populations (Volume 16)

Youth unemployment rates are high, and educational and health deficits are prevalent.

53459575

Journal of the Royal Statistical Association, Series B 34: 187—220. The data are official climatological information supplied by national meteorological and hydrological services worldwide. The rise of economic uncertainty: Objective or perceived changes? Almost 95% of dependents there are young.

Fertility and Family Policies in Nordic Countries, 1960

In 15 years, the percentage of children born in Europe to parents who are not married has gone from 10 to 25%, with a peak in Sweden 55%, but only 9% in Italy and 4% in Greece. Abortion Today, in almost every European nation, abortion is available up to the 12th week of pregnancy through a simple request by the mother. Morbidity and Mortality Weekly Report, vol.

Haiti (HTI)

On the pattern of cohort fertility.

United Nations Economic Commission for Europe [WorldCat Identities]

Gender, living arrangements, and the exclusion from home-ownership among older Europeans By Daniele Vignoli, Maria Letizia Tanturri, and Francesco Acciai Abstract: Home-ownership is the most important asset among the elderly in Europe, but in this domain very little is known about gender differences. The generalized and relatively homogeneous fertility decline across European countries in the aftermath of the Great Recession poses serious challenges to our knowledge of contemporary low fertility patterns. A single large urban agglomeration may comprise several cities or towns and their suburban fringes United Nations, 2008.

Fertility and Family Policies in Nordic Countries, 1960

Tilburg University Press, Tilburg, 1993; Changing Values and Beliefs in 85 Countries, Trends from the Values Surveys from 1981 to 2004 2007. Posted April 21 2015 - Working paper 33 2015 Increasing childlessness in Europe: Time trends and country differences By Anneli Miettinen, Anna Rotkirch, Ivett Szalma, Annalisa Donno, and Maria-Letizia Tanturri Abstract: This paper provides an overview of trends in female and male childlessness in Europe over the last decades and explores associations between cohort childlessness and national demographic and social indicators.

Fertility and Family Survey (FFS)

It represents a compilation from survey project web sites, social science data archive information resources and data catalogues, namely from the infrastructure network web resources provided by the Network of Economic and Social Science Infrastructures in Europe NESSIE and the International Federation of Data Archive organizations for the Social Sciences. The impact of economic uncertainty on demographic behavior has been a centerpiece of the social sciences for over a century.

THE FAMILY AND LIFE IN EUROPE

London: Taylor and Francis Ltd. Usage and regulation in the context of cross-border reproductive care By Patrick Präg and Melinda C.
