Dynamic Probabilistic Models and Social Structure : Essays on Socioeconomic Continuity

During the same time also, the death rate of these countries declined. All these opinion landscapes do neither look exactly as stylized outcomes of the simple versions from our core model, nor do they show a simple shape like a normal or Beta-distribution.

Social Dynamics Models and Methods

The COVID-19 pandemic has had a dramatic effect on women's labor market outcomes.

The Impact of Family Structure and Family change on Child Outcomes: A Personal Reading of the Research Literature

Among the biases are that we may underestimate how quickly herd immunity might be reached, underestimate differences across regions, and have biased estimates of the impact of endogenous and policy-driven social distancing. Given the high fiscal costs, some countries have withdrawn such measures, and other countries are contemplating doing so.

Building social cognitive models of language change

They may also have mitigating effect, suppressing unrest by dissuading social activities. In such an era of an increasingly constrained and divided world the need for progressive social change is obvious.

Social Change

The paper will sketch out answers to these questions, as far as these can be determined from the published results of research. We present the findings from the literature on these two policies implemented in the United States with an eye on potential future governmental interventions.
