17 Most Important Gunfight Stats: Backed By Data and Real World Experience

I found out that I could shoot most of my friends guns better than I could shoot my 92S in 9 mm. But in a high stress situation, I will have a natural tendency to be more accurate with the gun that fits me the best. Be careful to whom you listen Tom Givens coaching students during his renowned Firearms Instructor Development course.

Walther PPQ and the Canik TP9SFL from Turkey

Any semi-automatic pistol used for home defense should be extensively tested for reliability with the exact load it will be shooting when lives are on the line.

Poor gun choices for the novice owner

The burglar has a long rap sheet, and will be serving another 3 years.

RIVER VALLEY TRAINING, LLC

They may also be entertaining to those who are already farther along the way. And my gun was still not consistently accurate.

A Beginner's Handgun Journey, Part 2 by The Novice

The things I learned may be useful to those who are beginning a similar journey. Campbell served as a peace officer and security professional and has made hundreds of arrests and been injured on the job more than once.

Home Defense Gun

There are three common and popular types of guns you can choose from, and the following information discusses some features to help you decide which is the best option for you, should you ever require a firearm for a home defense situation. I carry my pistol fully loaded and ready to fire. This course will have students walking on varied terrain in darkness, although portions of the class will take place on a flat range much of the

course will take place in natural conditions.

Shooting Illustrated

Prerequisites: Precision Rifle Fundamentals in the last year or a similar precision rifle course from a reputable training provider and a statistical zero on your rifle in the week previous to class. The contractor decided to knock it down with a sledge and starts beating on his house as well.

Guns for Home Defense

The Picatinny accessory rail adds a good space for an added sight or light.
