## Hurlers Stone Circles

Studies have revealed that the Hurlers stone circles were an early ceremonial site that was used for funerals.

## History of The Hurlers Stone Circles

The reason why these are quite unique in England is that not only are the three circles arranged so close together but they also have been arranged in a perfect circle.

## Hurlers Stone Circle, an attraction near Liskeard, Cornwall.

The southern circle, which has not been excavated, is the least well preserved: it has nine original stones of which seven have fallen. Please note that there is no parking in the farmyard itself, though there is usually room for a car or two on the grass verge of the farm lane, providing access is not blocked.

## Cheesewring and Hurlers Stone Circles, Bodmin Moor

The signs of prehistoric mining are more difficult to spot. .
