## Charles Greville (diarist)

In such social intercourse, in political gossip, and in her untiring attentions, his last years glided away, not without enjoyment. It appears that Palmerston proposed on Saturday last that the entrance of the Russians into the Principalities should be considered a *casus belli*, in which, however, he was overruled and gave way. All these things satisfy the foreign Governments that we are not only politically but nationally their enemies, and that we harbour their rebellious subjects out of hatred to them, and that we regard with sympathy and a secret satisfaction the plots which they concoct in safety here and go forth to execute abroad.

In all this matter there is little doubt that Lord John has been instigated by his connexions, and they none of them, Lord John himself included, have sense enough to see that the course he is adopting is quite suicidal, and would be not less fatal to his own reputation and popularity than to the Government he belongs to.

### **Daisy Greville, Countess of Warwick**

For some time before the marriage was declared, Cowley, from what he saw and the information he received, began to suspect it would take place, and reported it to John Russell.

### **The Greville Memoirs (third Part): A Journal of the Reign of Queen Victoria ...**

Moderate men on the Liberal side regret that the original resolution was changed, deprecate the pitched battle, and above all dread that the Government may resign if they are beaten, which would cause the greatest confusion, nothing being ready for forming a government on the Liberal side, and the Government would go out with the advantage of saying that they were prepared with all sorts of good measures which the factious conduct of their opponents would not let them produce.
