**The legacies of history, B J Poff**

Nevertheless on 23 April, St. Moderate treated cases resulted in hospitalization at the same rate as mild untreated cases suggesting efficacy. Sensitivity analyses revealed similar associations.

**UN Women**

A careful study of the printed books before 1500 reveals concretely both the spread of the new learning and, at the same time, the vitality of the late medieval cultural tradition.

**Indigo**

The paper compares 0 - 36 hour delayed treatment with oseltamivir influenza and ~70 to 140 hour delayed treatment with HCQ COVID-19 , noting that oseltamivir seemed more effective. Mortality results in this study are only for mortality before transfer to the ICU.

**The legacies of history, B J Poff**

The creation of the dual monarchy of Ferdinand of Aragón and Isabella of between 1474 and 1479 created a powerful Spain that ruled the entire Spanish peninsula except Portugal, and Portugal as well from 1580 to 1640. The tercentenary generated some very unmemorable verse, but also some productions of more lasting significance. It was helped by the fall of Constantinople to the Ottoman Turks in 1453, which resulted in the transport of classical texts to Italy.

**A Humanist Theology, New Blackfriars**

As the rights Quaife was particularly interested in were Maori rights to possess, and therefore to sell, landed property, it is not being too ungracious to his memory to inquire about his own property aspirations. Humanism was more than skill in Latin.

## **A Humanist Theology, New Blackfriars**

. There were 2 COVID-19 hospitalizations, one in each group. Late treatment study Nachega et al.

### **HCQ for COVID**

Machiavelli maintained that a prince who tries to be good in the midst of so many who are not good is bound to fail. The actual effect of HCQ is likely to be higher for several reasons: the trials did not adjust for losses to fo. Hopefully authors will extend the analysis.
