## Symphony in Three Movements

The analysis is by Stephen Johnson and the symphony is performed by the BBC National Orchestra of Wales, under Christophe Mangou. The movement ends with reference to the motto heard in the first movement — one which quotes a motif heard in Schumann's in the first movement just before the second theme enters in the recapitulation — then fades away to a quiet ending.

## Beethoven: Symphony No. 3

That has embedded the work in every musician's imagination as one inspired by the conflict between the Russians and the Nazis. Music is gradually abating leaving the elements from introduction behind, therefore we are recalling the general theme where the harmony was strong standing and the tempo was moderated.

## Symphony in Three Movements (ballet)

For the third movement, instead of the rapid standard in 19th-century symphony, Brahms created a unique kind of movement that is moderate in tempo poco allegretto and intensely lyrical in character. Videos of an analysis and complete performance of the symphony.

## Symphony in Three Movements

The melody the symphony sings carries right through to the end, with the tears pouring down the faces of the entire nation. And then there's the masterstroke of the , in which Tchaikovsky's particular brand of melancholy builds to desperate levels of tragic feeling. But in Mahler, the scale is even greater, the emotional journey even more kaleidoscopic, and the connection with personal autobiography even more profound.
