### Europe news

Scholars taking a on wars and diplomacy have emphasized the 1648 as a dividing line. Before the abolition of its slave trade in 1807, the alone which had started colonial efforts , almost a century after Portuguese and Spanish empires was responsible for the transportation of 3. Yet it was not until the 19th and 20th centuries that modern was able to draw with some precision the geologic and geographic lineaments of the European continent, the peoples of which had meanwhile achieved domination over—and set in motion vast countervailing movements among—the inhabitants of much of the rest of the globe see.

### Europe Map and Satellite Image

Many historians have identified the early modern period as the epoch in which individuals began to think of themselves as belonging to a national polity—a notable break from medieval modes of self-identification, which had been largely based upon belonging to a universal , language, or feudal allegiance belonging to the manor or extended household of a particular or. It is typically dated from 1517, lasting until the end of the 1618-1648 with the in 1648. The creation of—representatives of royal power in the provinces—did much to undermine local control by regional nobles.
