## A Rare Wildflower That Only Blooms in Death Valley Was Saved From Extinction

There were several theories for the strange activity, but Richard Norris, a paleobiologist at Scripps Institution of Oceanography, and his cousin James Norris, a research engineer, were the first to photograph rocks in motion. Watch as pollinators, like bees and butterflies, are attracted to your meadow. After thousands of years, enough salts have settled here at the bottom of the continent to create this vast, surreal scene.

## Desert Wildflower Reports for Southern California by DesertUSA

As great as Death Valley NP might be, you probably want to visit other places too! Where to See the Wildflowers in Anza-Borrego Desert State Park in 2021 Anza-Borrego Desert wildflowers are found all around—and even in—Borrego Springs. This mix of wildflowers will make for beautiful natural bouquets with warm, harmonious colors. If you are looking for Death Valley National Park lodging in this area, is a great choice.

## Death Valley wildflowers

The flowers that heartily grow in such harsh environments hibernate for years at a time until the perfect conditions arise for them to blossom. Desdemona Dallas is a freelance writer based in Paonia, Colorado.

## Death Valley Bursts to Life With Rare “Super Bloom”

The average temperature was 108.

## Death Valley bursts to life with spring wildflowers

The depression works like a convection oven, recirculating hot air and making the valley one of the hottest places on earth, with ground-level temperatures that can reach 200 degrees in summer.

## 15 Incredible Things to Do in Death Valley National Park

Desert roads that I image are completely empty most of the year are now filled with cars. If you experience heat cramps, heat rash, heat exhaustion, or heat stroke, dial 911.

### **Desert Wildflower Reports for Southern California by DesertUSA**

The best blooms are triggered by an early, winter-type rainstorm in September or October, followed by an weather pattern that brings above average rainfall to the Desert Southwest. From noon to the late-afternoon, police officers are necessary to direct traffic and keep things running somewhat smoothly. To begin, a rainstorm of a half inch or more is needed to wash the protective coating off wildflower seeds and allow them to sprout.

### **A Rare Wildflower That Only Blooms in Death Valley Was Saved From Extinction**

Superblooms are fleeting, but they leave a lasting impression with park visitors and attract large numbers of pollinators such as butterflies, hummingbirds and bees. Avoid direct sunlight and wear lightweight, loose fitting clothes, or wet bandanas on your shoulders or around your head.
