Business Tendency and Consumer Opinion Surveys (MEI)

For the Major Seven economies as a whole, GDP growth slowed to 0. Some 71% of men are in paid work, compared with 32% of women.

OECD Economic Survey of Turkey 2021: Thursday 14 January

However, after accounting for performance in reading and maths, immigrant students scored only five points below non-immigrant students. According to the latest OECD data, Turkey's homicide rate is 1. Reviews of member and some non-member economies are on a two-year cycle; other selected non-member economies are also reviewed from time to time.

OECD economic surveys. Turkey. (eBook, 2006) [mikhmon.us.to]

About half of the increase in urban female employment was achieved by university-educated women, reflecting an increase in female higher education. Despite national and international interventions and decreases in major pollutant emissions, the health impacts of urban air pollution continue to worsen, with air pollution set to become the top environmental cause of premature mortality globally by 2050. All rankings for individual variables are compiled on the basis of OECD and G20 countries for which data are available.

Turkey Economic Snapshot

Better Policies for Better Lives Women's participation in the labour market Government subsidies for hiring female and younger workers, coupled with the increased need of families to secure second earner incomes in the global crisis, increased labour market participation among aged 25-54-year-old women from 29.

Education GPS
