## God's Covenant with Ancient Israel

Also, the time of writing was before the Roman exile of the Jews; the question of their return to the Land was not yet being asked. It should be obvious why God's covenants could not be negotiated agreements between equal parties.

## Unionism and Israel: Holy Land is not a hotter version of Ulster...

This is unfortunate because the author is widely read, has many interesting things to say about the historical interactions between religion and nationalism, and knows much about the intellectual world in the three areas he examines. It was the followers of Murray who filled the main seminary college at Stellenbosch, and out of this piety grew the missionary work of the Dutch Reformed Church, first among the Coloureds, then the Blacks and the Asians. I am no genius, but I think I can tell that the sun and stars are still there.

## Palestine or Israel? Just Whose land is It?

I believe the only way for long-term peace to be achieved is for Israel and the occupied territories to come together as a new unitary bi-national state, a joint homeland of Israelis and Palestinians, the Union of Palestine and Israel UPI if you will.

In Christian understanding, the Older Testament and Newer Testament are the canon, or unity of Scripture, and it establishes the land-promise in perpetuity. They will strike Damascus with nuclear weapons. I am certain all those calamities have not happened.

## Unionism and Israel: Holy Land is not a hotter version of Ulster...

This erudite book is premised on an intriguing, and what should be controversial, notion: certain peoples believe they have a special covenant with God. Yet could it not be that the very idea of one reaching forth for kingship came from the story of Zerah reaching forth from the womb—especially considering that Israelites under Zarhite leaders were scattered across, and had a major influence over, the entire Indo-European geographical region? The Israelis gain peace and the retention of their homeland at little cost, the Palestinians equality and stop being refugees in their own country. Chamberlain found that out when he tried to satisfy Hitler by trading him the Sudetenland for peace.

Israel has no oil, and Israel is full of Jews whom the world hates.

#### **God's People: Covenant and Land in South Africa, Israel and Ulster**

Akenson in this volume has chosen to compare the Afrikaner and Ulster Protestant societies with that of the Israeli Jews: their historical progress has been influenced by the belief that, like their ancestors, they are in covenant with the deity. But the Bible clearly teaches that the Abrahamic Covenant is an everlasting one that is still in effect Genesis 17:7; 1 Chronicles 16:17-18; Psalm 105:8-11; and Romans 9:4. In addition, Casanova argues that modernization clearly played a role in the decay of the structure of Ulster and South Africa, a conclusion Akenson explicitly rejects.

Where is your security if God can lie, fail, and deny Himself? This is all about Israel. If that ominous event should occur, the Israelis will be forced to use their ultimate weapon to survive.
