Legal effect of international law and Russian law norms: legislation, practical and scientific commentaries, judicial practice The Russian Constitution enforced the principle of priority of application of international treaties of the Russian Federation, if they establish the rules other than laws. Thus, the state can be recognized internationally responsible in connection with the actions of individuals or entities, which are no way connected with the state apparatus, which is resulted in violation of international legal obligations of the state as against other states and concerning the private interests of individuals. Особенностью правового режима акционерных компаний того времени, как отмечает Л.

## Eurasian Law Journal № 2 (117) 2018

Защита субъективных гражданских прав и охраняемых законом интересов осуществляется в предусмотренном законом порядке, т.

## Wilkes

Наконец, последний, самый главный теоретический аргумент. Юридическое лицо как субъект преступления и уголовной ответственности. Search of optimum state participation in regulation of public relations is a key problem of legal modernization, thus nature of realization of abilities of state substantially depends on level of organization of the public civil service, professional and personal qualities of civil servants.

## Moritz College of Law

The markers don't all indicate where it's safe to build a total of more than one million hair china per square inch.
