## Jennings and Darbshire (TV Episode 1983)

Try printing a letter to your aunt, thanking her for the printing press she gave you for your 11th birthday and requesting some replacement letter 'e's that have been lost without recourse to the letter 'e'. So all the boys are on their best behaviour around Mr.

## Jennings and Darbshire by Anthony Buckeridge

Jennings was played by John Mitchell in the first series, and by David Schulten in the second. Released as an Audiobook by , narrated by , in 2011 23 Jennings Again! Carter, the avuncular character, who radiated common-sense and to whom Jennings turned when he was in trouble. Although the boys are the heroes, the world is controlled by adults, who unlike the adults in William who are being pretty mercilessly satirised have the best interests of the boys in their charge always in focus.

## Jennings (Literature)

I recognize that William is, in some sense, superior, but never had the relationship with William that I did with Jennings. He has a tendency to forget or downplay in his mind just how reasonable and understanding the teachers in reality are, and tends to violently exaggerate and blow out of proportion any problems he might run into or inadvertently cause — going to ludicrous lengths to keep the teachers from finding out and thrashing him within an inch of his life.

## Jennings and Darbshire (Anthony Buckeridge)

Meanwhile, Darbshire has some problems of his own, firstly when Mr Hind chooses him to play a recorder solo at the school concert. Inherently more cautious than his best friend, he usually finds himself drawn into situations in which he would rather not be involved. I imagine that this might have been the result if had written books using children as characters instead of writing about Jeeves and Wooster.
