## Professor Michael Wooldridge

Decision-makers could still interact with material objects while experimenting with secondary electronic representations for documenting decisions or evaluating outcomes. Poster presented at the annual meeting of the Association for Psychological Science, San Francisco, CA. There was also work-in-progress displayed and annotated with sticky notes.

## Faculty Publications

Using ancient board games and a custom board game design kit participants, are introduced through creative activities and a lot of playing to the basic elements and steps for designing a 2-player board game and design their own game, while at the same time train their soft skills and computational thinking. Utrecht, The Netherlands: ACM Press, pp. Touch detection for planar interactive displays based on lateral depth views.

## Curriculum vitae of Erik Wilde

Because this mapping between human expression and the capabilities of the system is not seamless, users of multimodal systems are frequently burdened with remembering a great deal of special-case knowledge.

## Publication List

Also , April 1993; MIT LCS Programming Methodology Group Memo 76, May 1993. Vol 173, No 9-10, pages 935-981.

## Intelligent Agents for Telecommunication Applications: Second International Workshop, IATA'98 Paris, France, July 4

For example, can you see who is working on a task? Banerjee, Consultant, Pravin Bhagwat, IBM, R. ACM, New York, NY, USA, Article 20, 3 pages.

## **Lexical Semantics for Terminology: An introduction**

In 2012 International Conference on Innovations in Information Technology IIT. Streitz GMD-IPSI, Darmstadt Program Committee Norbert A.
