### Woman Versus Female

Car Heater The first person to patent an was Margaret A. No wonder people get so hot about language. Presented on an interactive portal, the report analyses gender equality in six critical areas: population and families; health; education; economic empowerment and asset ownership; power and decision-making; and violence against women and the girl child as well as the impact of COVID-19.

### Using 'Lady,' 'Woman,' and 'Female' to Modify Nouns

It could be argued in some alternate reality that this was a female issue so they took to the floor not as female Senators but as women . . .

### The World's Women 2020: Trends and Statistics

However, using too much product can add weight.

or

. And the pandemic is expected to exacerbate these gender disparities, as many women work in the subsectors hardest hit by COVID-19 and lockdown measures, including in paid domestic work, accommodation and food services, and the retail trade.

### Women Serving in the 117th Congress 2021

. However, it is estimated that more than 50% of women will experience noticeable hair loss.
